

ASYLUM

To you who wish to apply for asylum in Sweden. Here is some short information about what happens in the beginning of the asylum process.

The Swedish Migration Agency arranges transportation to our premises where you can apply for asylum. If you arrive in the evening or at night we will take you to an accommodation on arrival where you can spend the night.

At the Swedish Migration Agency your application for asylum will be registered as soon as possible.

If you cannot arrange accommodation on your own you can stay at a Swedish Migration Agency accommodation on arrival. At the accommodation on arrival you will be given food, linens and sanitary items, for example a towel and a toothbrush.

When the registration is completed the asylum process begins. You will receive information from the Migration Agency about how to supplement your application.

You can now arrange accommodation on your own or stay in one of the Migration Agency's accommodations.

If you do not apply for asylum you are staying in Sweden illegally. The Police is responsible for controlling who is in the country legally and not.
